DETAILED ACTION

Priority

1. This application appears to be a division of Application No. 09/267,981, filed March 12, 1999. A later application for a distinct or independent invention, carved out of a pending application and disclosing and claiming only subject matter disclosed in an earlier or parent application is known as a divisional application or "division." The divisional application should set forth only that portion of the earlier disclosure which is germane to the invention as claimed in the divisional application.

Oath/Declaration

2. It does not identify the application for patent on which priority is claimed by specifying the application number, day, month and year of its filing, and current status.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 22-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith et al [Pat. No. 5,398,666].

Smith et al teach a method of cooking by placing a pizza on a rotatable food support member in the form of a removable pan, with the pizza over the axis of rotation (Figure

3; column 3, lines 13-17), rotating the pizza (column 10, lines 53-63), upper and lower heating members defining a chamber (Figure 3, 90a-b), and the chamber covering only a portion of the pan (Figure 3).

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lara Jr [Pat. No. 5,676,044] teaches a method of cooking pizza.
